EB05367 - Goat Anti-Dysadherin Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: FXYD5, dysadherin, FXYD domain containing ion transport regulator 5, RIC, IWU1, IWU-1, dysad, HSPC113, KCT1, OIT2, PRO6241, FXYD domain-containing ion transport regulator 5, keratinocytes associated transmembrane protein 1, DYSAD, HSPC113

Official Symbol: FXYD5

that represent the same protein.

Accession Number(s): NP_054883.3; NP_659003.1; NP_001158077.1 Human GeneID(s): <u>53827</u> Important Comments: NP_054883.3, NP_659003.1and NP_001158077.1 are variants

Immunogen

Peptide with sequence GKCRQLSRLCRNHCR, from the C Terminus of the protein sequence according to NP_054883.3; NP_659003.1; NP_001158077.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:8000.

Western blot: Approx 38kDa band observed in Human Spleen lysates (calculated MW of 19.5 kDa according to NP_054883 and NP_659003). The band was successfully blocked by incubation with the immunizing peptide. According to the literature this protein is O-glycosylated (PMID: 12672699), which may explain the size difference observed.
