## EB07981 - Goat Anti-LGP2 Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** DHX58, LGP2, DEXH (Asp-Glu-X-His) box polypeptide 58, D11LGP2, D11lgp2e, LGP2, RNA helicase LGP2, ortholog of mouse D11lgp2

**Official Symbol:** DHX58

**Accession Number(s):** NP\_077024.2

**Human GeneID(s):** [79132](#)

### Immunogen

Peptide with sequence DFLQHCENLSD, from the C Terminus of the protein sequence according to NP\_077024.2.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:8000.

**Western blot:** Approx 80kDa band observed in Human Liver lysates (calculated MW of 76.6kDa according to NP\_077024.2). Recommended concentration: 0.3-1µg/ml. An additional band of unknown identity was also consistently observed at 24kDa. This band was successfully blocked by incubation with the immunising peptide. We would appreciate any feedback from people in the field - have any such results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

### Species Reactivity

**Tested:** Human

**Expected from sequence similarity:** Human

EB07981 (0.3µg/ml) staining of Human Liver lysate (35µg protein in RIPA buffer). Primary incubation was 1 hour.  
Detected by chemiluminescence.
