## EB08030 - Goat Anti-Neudesin / NENF Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** NENF, neuron derived neurotrophic factor, CIR2, SCIRP10, SPUF, SCIRP10-related protein, Spinal cord injury related protein 10, cell growth-inhibiting protein 47 neudesin secreted protein of unknown function, Neudesin

**Official Symbol:** NENF

**Accession Number(s):** NP\_037481.1

**Human GeneID(s):** [29937](#)

**Non-Human GeneID(s):** 66208 (mouse), 289380 (rat)

### Immunogen

Peptide with sequence C-NEDGSPNLDFKP, from the internal region (near the C Terminus) of the protein sequence according to NP\_037481.1.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:16000.

**Western blot:** Preliminary experiments gave an approx 45kDa band in Human Brain (Cerebellum) lysates after 0.3µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 18.6kDa according to NP\_037481.1 The 45kDa band was successfully blocked by incubation with the immunizing peptide. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

### Species Reactivity

**Tested:**

**Expected from sequence similarity:** Human, Mouse, Rat, Dog, Cow
