# EB08229 - Goat Anti-PTPRM Antibody

Size: 100µg specific antibody in 200µl

## **Target Protein**

Principal Names: PTPRM, protein tyrosine phosphatase, receptor type, M, MGC166994, PTPRL1, R-PTP-MU, RPTPM, RPTPU, hR-PTPu, protein tyrosine phosphatase mu, protein tyrosine phosphatase, receptor type, mu polypeptide
Official Symbol: PTPRM
Accession Number(s): NP\_001098714.1; NP\_002836.3
Human GenelD(s): 5797
Important Comments: This antibody is expected to recognise both reported isoforms (NP\_001098714.1 and NP\_002836.3).
Immunogen
Peptide with sequence C-KLIRQVDKWQEEYN, from the internal region of the protein

sequence according to NP\_001098714.1; NP\_002836.3.

Please note the <u>peptide</u> is available for sale.

#### **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

## **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:16000.

**Western blot:** Preliminary experiments gave bands at approx 110kDa and 16kDa in Rat Retina lysates after 0.1µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the bands we observe given the calculated size of 165kDa according to Human NP\_001098714.1. Both detected bands were successfully blocked by incubation with the immunizing peptide (and BLAST results with the immunizing peptide sequence did not identify any other proteins to explain the additional bands).

**IHC:** Paraffin embedded Human Uterus and Thyroid. Recommended concentration: 3.75µg/ml.

## **Species Reactivity**

Tested: Human Expected from sequence similarity: Human, Mouse, Dog EB08229 (3.75µg/ml) staining of paraffin embedded Human Uterus. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

EB08229 (3.75µg/ml) staining of paraffin embedded Human Thyroid. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
